IDENTIFIERS	*Louisiana; *Parish Libraries

ABSTRACT

The purpose of this report is to provide a record of the development of the State of Louisiana's public libraries, to create an evaluation tool that is useful to local library administrators and trustees. With one exception, "Public Libraries in Louisiana: Statistical Report, 1996" is a summation of the annual reports submitted to the State Library by Louisiana's 65 public/parish libraries for the 12-month period covering January 1 through December 31, 1996. Libraries are listed in this report by legal service area populations in descending order. Included with the Introduction are three tables: Louisiana Public Library Statistics: Five Year Summary; National and State Selected Data and Rankings; and Automation Systems and Public Access Internet Workstations. Eight tables make up the body of the report: Libraries: General Information; Personnel; Collections; Circulation; Operating Income; Operating Expenditures; and Other Measures. The Louisiana Public Library Directory is included at the end. (AEF)

STATE OF LOUISIANA

INTRODUCTION

With one exception, *Public Libraries in Louisiana: Statistical Report 1996* is a summation of the annual reports submitted to the State Library by Louisiana's 65 public/parish libraries for the 12 month period covering January 1 through December 31, 1996. On June 3, 1996, the city and parish governments of Lafayette consolidated and adopted a new fiscal year which will run November 1 through October 31. Because of the adjustment to this change, Lafayette Public Library's current report covers only a ten month period, January 1 through October 31, 1996. For the 1997 submission, Lafayette will resume reporting for a 12 month period, November 1, 1996, through October 31, 1997.

Libraries are listed in this report by legal service area populations in descending order. Population figures are supplied by Louisiana Tech University's College of Administration and Business Research Division, the agency which provides the state's intercensal population estimates. Various percentages and per capita analyses are included in the report to facilitate comparisons among libraries of similar size and as achievement measures of goals set forth in *Standards for Louisiana Public Libraries 1995*, a publication of the Louisiana Library Association's Public Library Section.

While herculean efforts are made to secure and report complete and reliable data, this is not always possible. The code "NA" is used to indicate data not available, not reported to the State Library. A blank space is used in some instances to indicate the response to the data element was "0" or "none". Data elements used in the state report conform to those prescribed by the Federal State Cooperative System for Public Library Data (FSCS), a program of the U. S. Department of Education's National Center for Education Statistics and the National Commission on Libraries and Information Science. As such, Louisiana's public library statistical data is uniform with that of the other 49 states.

The purpose of this report is to provide a record of the development of the state's public libraries, to create a tool that is useful to local library administrators and trustees in evaluating, planning, and upgrading library resources and services. Statistics are a must for informed decision making, for justification for funding, and for accountability. The cooperation of all involved in the process of collecting, verifying, and reporting the data is greatly appreciated.

Comments and suggestions regarding this report are welcomed. For this or for further information regarding Louisiana public library data, contact Gretchen Fairbanks, Public Library Consultant, Library Development Division, State Library of Louisiana, telephone 504/342-4931, or e-mail gfairban@pelican.state.lib.la.us.

LOUISIANA PUBLIC LIBRARY STATISTICS: FIVE YEAR SUMMARY

From: Public Libraries in Louisiana: Statistical Report [annual].

	1992	1993	1994	1995	1996
Number of FTE employees	1,698	1,697	1,691	1,787	1,762
